2. Product Contents

Standard package includes the following:

- ◆ TFT LCD Monitor (Non base)
- ◆ AC adapter
- ◆ Power Cable
- ◆ Signal cable (HDMI Cable)
- ◆ USB cable

2. Signal Connectors

3. Operation Instructions

3.1. Front Control Panel

1. Auto:Execute auto-adjustment
2. Power switch: power on/off

4. Cautions

4.1. Product

1. Do not block the ventilation holes at the back of the monitor case.
2. Do not attempt to dismantle this product.
3. Do not touch the screen directly with fingers. The oils from your skin may leave marks and damage the screen permanently.
4. Do not apply pressure to the LCD screen.
5. For safety concern, it's necessary to use 8 ~ 10 mm M4 screw with washer and spring washer while mounting machine to wall.
6. In addition to the bottom set, it's necessary to use the other type of monitor mounting device which meets VESA 75 x 75 spec.

4.2. Main Plugs (2 Pin / 3 Pin)

1. Do not remove the grounding connection from the power cord
2. Always remember to unplug the LCD Monitor from the power supply if the monitor will not be used for a long period of time, or if the power supply is damaged.

4.3. Power cord and signal cables

1. Do not put anything on top of the power cord or signal cable.
2. Do not put cables in areas where pedestrians are likely to trip.
3. Do not overload the power supply or adapter.
4. Do not put the power cord or signal cable in humid places.

4.4. Environment

1. Do not place this product on any unstable trolleys, shelves or tables as it may fall and cause severe injury and damage.
2. Avoid placing the monitor in the following environments: high humidity, direct sunlight, dusty surroundings, and strong magnetic field areas.

5. Federal Communication Commission

This equipment has been tested and found to comply with the limits for a class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generate, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instruction, may cause harmful interference to radio communications. However, there is no guaranty that interference will not occur in a particular installation. If this equipment does causes harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by on or more of the following measures:

- ◆ Reorient or relocate the receiving antenna.
- ◆ Increase the separation between the equipment and receiver.
- ◆ Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- ◆ Consult the dealer or an experienced radio / TV technician for help.

6. Warranty

After this product is unpacked, keep the carton and packing materials to ensure safe transportation in case of any after sales service. The warranty is covered for 12-month and is subject to normal conditions of use. If you experience any problems with this product please contact your local dealer or supplier for repair and maintenance instructions.

Warranty Do NOT Include:

- ◆ Any damage resulting from incorrect use or careless operation or handling of the equipment.
- ◆ Any damage caused by not operating the equipment in accordance with the manufacturer's instructions detailed in the "User Manual".
- ◆ Any tampering or removal of the Monitor housing will invalidate the warranty.
- ◆ Damages resulting from natural disasters e.g. flood, fire and earthquake.
- ◆ Any damages caused by inappropriate transportation or storage of the equipment.
